

YOUR BUSINESS CASE – WHY IT IS WORTH IMPLEMENTING A WORKFORCE MANAGEMENT PROGRAMME

Every process holds potential for optimisation – but at what point? Our Process Time Analysis (PTA) gives you a transparent overview of potential savings in your workforce management, showing you valuable possible savings when recruiting external resources. Learn more about the role the implementation of a VMS solution or MSP programme could play in this context.

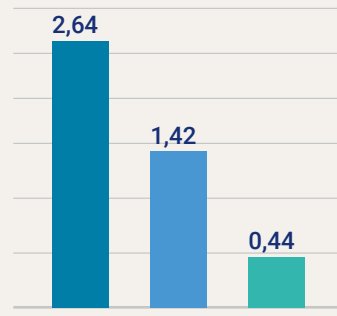

OPTIMISATION POTENTIAL: IMMEDIATE RESULTS AT A GLANCE

Example Process Time Analysis with only four key figures

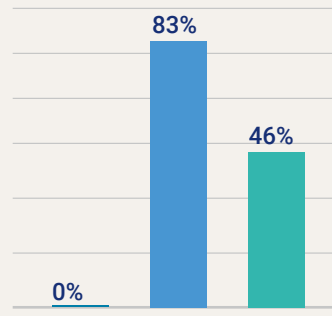

Figures

- resources
300
- new suppliers
+5
- existing suppliers
40
- total personnel costs
(*1,7 Faktor) interner
Ressourcen
75.000,00 EUR

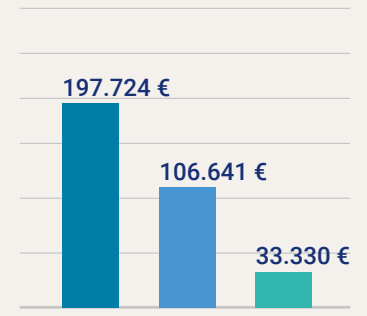

Total expenditure in FTE*

Time saving in %*

Ø - costs in €* *per year

Your benefits

- Use the results for an internal business case.
- Valuable data as an internal decision-making basis for the implementation of a VMS solution or MSP programme.
- Real figures – reflection based on experience from our programmes.
- Identification of indirect savings through process time savings.

Tailor-made analysis

- You have the opportunity to include all of your individual company's recruitment tasks in the calculation of the process time analysis.
- We will show you precisely fitting values based on broad experience and data.
- Together we will analyse your end-to-end process.
