

DIGITALISATION! BUT THE RIGHT WAY! **OUR VMS ADVICE**

In our experience, vendor management systems (VMS) are the right solution for an end-to-end automation and digitalisation of all processes related to the procurement and management of external resources (service contracts, temporary employment contracts and statements of work). Together we will find the solution that fit your needs.

Our services for you:

- We will show you which VMS solutions are existing on the market.
- We advise you and evaluate the right solution with you.
- You decide based on profound performance and price information.

Analysis

Your wish for automation

Our services for you:

- Identification of optimisation approaches through a profound process time analysis..
- Transparent calculation of your individual business case.

VMS

Would you like to implement a VMS?

Our consulting expertise

- 14 years of experience with VMS solutions on the market.
- We know which solutions fit your needs.
- VMS providers trust in our expertise – you can, too!

Examples for our partner companies

Voices of our partner companies

SAP Fieldglass®

„Hays is an important partner for us ensuring the successful implementation and the permanently efficient use of SAP Fieldglass. From the very beginning, Hays supports you as our customer during the change process by clearly communicating objectives and involving all relevant stakeholders as well as through comprehensive process consulting.“

Peter Graulich, General Manager, SAP Intelligent Spend & Business Network for Middle & Eastern Europe

„We cooperate with one of the most experienced recruitment agencies to ensure our customers can get the most out of strategic workforce management. Together with Hays, we have already successfully implemented projects for numerous major customers and optimally combined our competencies.“

Ole Marx, Head of Sales D-A-CH Beeline
