

LET'S MOVE INTO THE FUTURE: VENDOR MANAGEMENT SYSTEM

Work together with your technology partner to define a new automated procurement process for external resources. From request and time recording to the final assessment, all sub-process steps can be mapped in one vendor management system.

A Vendor Management System – your Chances

AUTOMATION

- Standardise your processes.
- Communicate tool-based with your suppliers.
- Reduce your process times.
- Use standardised interfaces to your systems.

COST TRANSPARENCY

- Compare offers at a glance.
- Calculate forecasts of the order volume.
- Use the time and expense recording to monitor your current actual expenses.
- Benefit from benchmarks to optimise your costs for external resources.
- Identify saving potentials.

[Use our VMS Advice and other services](#)

Our Services for you
